

Company Profile

Kejuruteraan Indah Jaya (M) Sdn Bhd

YOUR TRUSTED ONE-STOP SOLUTION FOR FIRE FIGHTING AND SAFETY SERVICES PROVIDERS

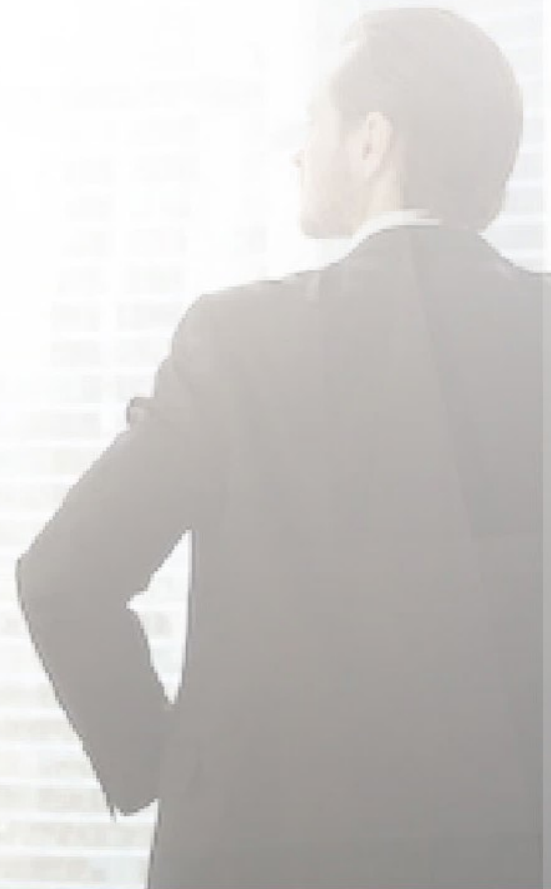

Growing and expanding since 1985

Kejuruteraan Indah Jaya owes its humble beginnings in 1985, being a one-man to the energy and drive of its founder, late Mr. Muthusammy as a contractor for installing fire-fighting systems in construction projects. With the help of his son Mr. Naavinthiran S/O Muthusammy, has successfully pushed the company to new and greater heights. It has marked another milestone in 2017 by upgrading from an enterprise to a private limited company; Kejuruteraan Indah Jaya (M) Sdn Bhd (KIJ).

Mr. Naavinthiran and his team have gained valuable in-depth knowledge and experiences regarding firefighting products, systems, solutions, and the industry. With the company's rapid growth and expansion, finally make its breakthrough strategy in trading, service solutions provider, maintenance, and project management.

In 2018, Navvin Engineering Sdn Bhd had been set up as subsidiaries of Kejuruteraan Indah Jaya (M) Sdn Bhd mainly focus on project management for all kinds of firefighting systems and solutions. As of to date, the group of companies has grown by leaps and bounds to become a fire fighting specialist with landmark projects in nearly all major industries throughout Ipoh, Perak, Malaysia.

About Us

Kejuruteraan Indah Jaya (M) Sdn Bhd (KIJ) is certified and approved by the Fire and Rescue Department of Malaysia with over 30 years of experience in the Fire Protection and Safety Industry. We serve a large and varied client base including property owners, architects, developers, consultants, local authorities, and housing associations for residential, commercial, industry, and high-rise buildings.

KIJ is devoted and trustworthy in the trading, maintenance, and servicing of fire extinguishers to bring you the finest equipment at the right price. We are the leading total solutions provider for fire safety thus qualified to carry out public installation and maintenance of fire safety systems such as fire alarm, firefighting sprinkler, hydrant system, hose reel system, wet and dry riser systems, deluge system, Co2 system, wet – chemical suppression system, fire extinguisher, emergency lighting, nickel-cadmium battery, firefighting “bomba” approved wiring and plumbing works.

With health and safety being the top priority, there’s one threat that is often brushed aside - fire. The threat of fire is ever-present and can happen at any time. It could be the difference between life and death. To ensure your business and staff are safe from potential fires, KIJ team with highly skilled and experienced project managers, site supervisors, and technicians carry out their duties with the highest quality while adhering to stringent standards under the Fire Services Act 1988 which makes it necessary provision for the effective and efficient functioning of the Fire Services Department as well as the protection of persons and property from fire risks.
